December 13, 2000

Sir:

This is in response to the Communication dated November 13, 2000, wherein a species election is required. The Examiner states that the Response to Restriction Requirement filed August 14, 2000 electing the claims of Group II, claims 70-73, is not fully responsive to the Restriction Requirement mailed May 9, 2000. The Office Action requires the applicant to elect one of the following species to which the claims shall be restricted if no generic claim is finally held to be allowable:

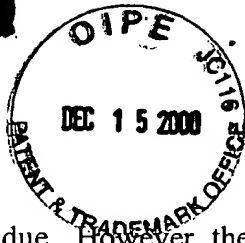

Sequences similar to a portion of the HAV VP2/VP4 protein;

Sequences similar to a portion of the HAV VP3 protein;

Sequences similar to a portion of the HAV VP1 protein;
Sequences similar to a portion of the HAV P2A protein;
Sequences similar to a portion of the HAV P2B protein;
Sequences similar to a portion of the HAV P2C protein;
Sequences similar to a portion of the HAV P3A protein;
Sequences similar to a portion of the HAV P3B protein; and
Sequences similar to a portion of the HAV P3C protein.

Applicants provisionally elect the species corresponding to sequences similar to a portion of the HAV P2A protein which read on claims 70-73.

Moreover, upon the allowance of a generic claim, applicant respectfully requests that the Examiner consider claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141.
